

Mechanical Engineer to the Director of Overseas Development Centre at Pune for a United States Company.

Ravi Natu (1968 M) has over 4 decades of experience in blue-chip organizations, largely in International Marketing and in Setting Start-ups and ODCs in India. He has travelled extensively and was based at Singapore and London as part of his marketing career. He also set up an assembly operation for a leading Indian manufacturer of Thermal Equipment near London. In his last major assignment, Ravi as Vice-president, established and grew the Overseas Development Centre at Pune for a US based leading player in Property Management Software till he retired in 2013. Thereafter he

mentored a couple of smaller business till he decided to use his experience and energy in starting and managing an NGO dedicated to the betterment of Rural India. As the Chief Functionary of Jodo India Social Foundation Ravi is engaged in fulfilling its twofold mission: Protecting the Environment and Sustaining it through providing Reusable Sanitary Pads to Underprivileged Schoolgirls and planting seed balls in the countryside.
